WPC = Wraps per centremetre  
(wrap thread around ruler for 1cm, count # wraps)

lower # wraps = thicker thread  
higher # wraps = thinner thread

## TO USE THIS CHART

- 1 Find out the wpc of the thread you are to use. (check in Brenda Paternoster book "Threads for Lace, Edition 3" )
- 2 Look up the wpc on the chart above to see which size/s of grids are recommended for that thread
- 3 Use that size grid for the pricking :)
